[Log Cabin Republicans Featured in National & International Media](#)

Log Cabin has been providing a strong voice in the midst of the scandal involving Senator Larry Craig (R-ID). His behavior has been inappropriate and illegal. His explanation is not credible. He should take responsibility for his poor judgment and illegal behavior by resigning.

Senator Craig has a terrible record on gay rights issues, so obviously hypocrisy is part of this story. However, even if he had a good record on gay issues his behavior would still be illegal and inappropriate.

Log Cabin is providing a principled voice for integrity and character in the midst of a difficult situation. Newspaper, radio, and television news outlets across America and the world have included Log Cabin's perspective. Log Cabin staff members have appeared on national television and talk radio shows in Arizona, Colorado, Kentucky, Pennsylvania, and other states. Newspapers including the *Los Angeles Times*, *USA Today*, *Washington Post*, *Idaho Statesman*, and others have included quotes from Log Cabin President Patrick Sammon.
